## Car Accident Victim Impact Statement

My son faced his death as he was walking at the pedestrian lane towards our house's gate when a car overran and hit him. It was one of the most frightening incidents that I have ever faced in life as I was at the gate and witnessed the incident.

The accident occurred on June 1, 2016 and is still fresh on my memory on how Chris met his death. The police reacted swiftly to the incident, but Chris was pronounced dead after arriving to the hospital. James, the driver of the vehicle that caused the accident was taken to the hospital and tests signified that he was driving under the influence of alcohol.

The crash has impacted my family, friends and the entire community in that Chris was a young and cheerful boy at only the age of six years signifying that he had the whole future before him. My family is yet to come into terms and agree that Chris will no longer live with us. While the incident made my family undergo an economic loss, the loss of a loved one proves more hurting and is an issue that will live forever. My family will live the rest of life with the pain and memory of losing Chris considering that it happened out of a behavior that would have been protected.

Since James has two earlier counts of driving under the influence, I feel that it is best if the court convicted him for murder as he seems not to care for the adverse consequences associated with drunk driving. His actions amount to murder and the court should deem it such and accord him life imprisonment to prevent him from causing other deaths.

Traffic accidents between vehicles and pedestrians are common enough that one pedestrian death occurs about every 1.6 hours on our nation's roads and highways, according to data from the Centers for Disease Control and Prevention (CDC).
